1. INTRODUCTION

Welcome to the Tamworth Community Safety Partnership Strategy 2020 - 2023 . This document is a three year rolling plan which outlines how we are going to collectively tackle community safety issues in the Tamworth borough, how we have achieved against the outcomes set in the previous years and what we will prioritise this year.

All the priorities require a robust multi-agency response, but because they are important for residents and communities, achieving them will have a positive impact on people's quality of life.

The Partnership continues to work together to reduce crime and ASB to improve public perception, wellbeing and community safety in Tamworth

2. BACKGROUND

The Crime and Disorder Act 1998 changed the way crime and anti-social behaviour were to be tackled. It recognised that in order to be effective, agencies needed to work together to address the issues collectively. Each local area formed a Crime and Disorder Reduction Partnership (CDRP) which are now called Community Safety Partnerships.

A comprehensive Community Safety Strategic Assessment is undertaken in Staffordshire and Stoke-on-Trent every three years and an annual update is undertaken in the remaining two years. Additionally this process is undertaken in each district / borough Authority.

The full Strategic Assessment methodology includes the use of a risk scoring matrix called MoRiLE (a technique for Managing Risk in Law Enforcement that ranks crime and disorder issues based on threat risk and harm to individuals, communities and organisations) It differs in that it ranks priorities/themes based on threat risk and harm as opposed to relying mainly on volume of crime figures.

Data from a wide range of sources was analysed to show how the CSP compares with other areas for the priority crime types and how volumes and rates have changed over time and how they vary by ward. Information from research was used to describe any notable risk factors and victim and offender characteristics as well as approaches to partnership working.

The priorities were then ranked against a number of factors, including volume, trend over time, residents' perceptions and how much it was felt that the partnership can influence. This was then reviewed by our stakeholders and finally the top ranked priorities were analysed in depth, to help guide practitioners in formulating actions that they feel will have an impact on each priority

The Tamworth Community Safety Partnership is made up of Responsible Authorities (those bodies for whom membership of the CSP is a statutory obligation) and voluntary members.

Our statutory partners are:

- Tamworth Borough Council
- Staffordshire County Council
- Staffordshire Police
- Staffordshire Commissioners Office

- Staffordshire Fire and Rescue Service (FARS)
- National Probation Service
- Staffordshire & West Midlands Community Rehabilitation Company
- South East Staffs and Seisdon Peninsula Clinical Commissioning Group – Primary Care Network
- Midlands Partnership NHS Foundation Trust
- Support Staffordshire
- SCVYS

In addition to our statutory partners we also work with a large number of voluntary and private sector partners as well as community groups to collectively implement and deliver initiatives that will help keep the Tamworth borough a safe place to live, work and visit.

4. PRIORITIES 2020-23

Our priorities have been identified from the following strategic sources which should be read in conjunction with this document:-

- [Community Safety Strategic Assessment 2019](#)
- Staffordshire County Council [Early Help Strategy](#)
- Staffordshire Commissioner's Office [Safer Fairer United Communities 2017-20](#)
- Staffordshire County Council [Community Safety plan](#)

Each priority will be overseen by a strategic lead who will be responsible for developing the CSP's response for their priority area, developing delivery plans, working with other priority leads on cross-cutting areas of work and monitoring performance against outcomes.

To reduce levels of crime and improve community safety in Tamworth the partnership must target efforts in a holistic way to those who suffer most inequality and who demonstrate the highest levels of vulnerability or threat.

The Partnership continues to be funded through the Staffordshire Commissioner's Office (Police, Fire and Rescue, Crime) Locality Deal Fund. Commitment for 2020/21 is £64,000

The Partnerships Co-ordination Group will be responsible for monitoring the emerging issues and the delivery of actions. The plan will also be reviewed and updated on an annual basis.

Further funding streams are available for statutory and volunteer organisations and the Partnership will actively encourage and support bids which meet priority outcomes.

The Partnership Co-ordination Group has the responsibility for developing and delivering the tactical aspects of the plan.

Outcomes against the plan will be reported to the Tamworth Strategic Partnership Board by the Assistant Director Partnerships and Tamworth Police Chief Inspector.

Public Consultation

[Feeling the Difference](#) is a long standing public opinion survey giving residents of Staffordshire and Stoke-on-Trent an opportunity to give their views on their local area as a place to live, their safety and wellbeing, policing and other local services.

A high proportion of residents are satisfied with Tamworth as an area to live (93%) and the large majority are satisfied with their quality of life (92%).

Around half (46%) of residents appear to be satisfied with the level of police presence in the local area, while overall feelings of safety in Tamworth are high; local residents report that they feel very safe in Tamworth during the day (98%) and the very large majority also feel safe after dark (85%)

Tamworth Community Safety Partnership Priorities 2020

Anti-Social Behaviour (ASB)
Domestic Abuse and Stalking & Harassment
Burglaries (Car Key)
County Lines
Public Place Violence (including Knife Crime)
Vulnerable Persons and Contextual Safeguarding (including Drugs)

Analysis of the data shows that priorities are often inter-related and all partners will continue to develop and share priority data sets that will help to inform Community Safety, Early Help and Placed Based Approach action plans.

The Community Safety Strategic Assessment also recommended the following areas for ongoing consideration within the priority areas:-

- Repeat and Persistent Offending
- Modern Slavery
- Fire and Risk of Fire
- Business Crime
- Community Cohesion and Hate Crime
- Counter Terrorism/Prevent

There is a need for this plan to be a flexible and dynamic document. We will use real-time data to re-assess the proposed actions and complete the measures of success column, this will enable us to be focused on the most pressing issues and ensure we can set achievable targets that make the required impact. These will be set by partners forming specific working groups and producing tactical plans to agree the way forward.

4.1 Anti Social Behaviour ¹

6. Underlying Principles

These five identified priorities will have a number of underlying principles to ensure that we embed our approach to delivery of the strategy.:

- Prevention wherever possible
- Early intervention
- Targeting prolific offenders
- Targeting resources to hotspot areas
- Supporting victims
- Increasing public confidence

Through early intervention the CSP will prevent issues escalating, reducing harm to individuals and ensuring that they receive help and support as early as possible.

It is also important to recognise the theme of serious and organised criminality that runs through all these priorities, as well as the work that has been and will continue to be done to develop the partnership response to this.

7. How we will deliver

In order to measure success, the CSP will develop operational plans and performance indicators for each priority and monitor on a regular basis. Priority leads will report on progress to the Tamworth Strategic Partnership and publicly through the Council's Infrastructure Safety and Growth Scrutiny Committee.

The strategy is refreshed annually through reviewing information set out in the Community Safety Strategic Assessment which ensures that current issues are taken into account and used to direct the CSP's strategy and actions to ensure that it remains current and reactive to emerging threats.
