# Corporate Peer Challenge 29 - 31 October 2024

# Corporate Peer Challenge (CPC)

- A voluntary process conducted by peers
- Key part of the LGA's new [improvement and assurance framework](#) for local government
- Sector-led improvement (SLI) to support continuous improvement and assurance
- Recognised as assisting councils to meet their [Best Value duty](#)
- Provides assurance both of the performance of its services and corporate governance
- The LGA encourages all councils to have a Corporate Peer Challenge every five years and to publish their reports online
- Last one for Tamworth was 2013

# CPC Elements

Five core elements:

- Local priorities and outcomes
- Organisational and place leadership
- Governance and culture
- Financial planning and management
- Capacity for improvement

Councils can also request input on specific areas:

- How the council can make best use of Information and Communication Technologies (ICT) including emerging technologies to support innovation and the delivery of corporate objectives.

# Information required

- Position statement from the Council – highlighting current state and plans
- Supporting documents – including strategies and plans, Annual Governance Statement, relevant reports
- [LG Inform](#) Performance data
- LGA Financial briefing

# Impact of the CPC

- Resource intensive in the few weeks leading up and after the report is published
- Much data to collate and prepare for the review team
- A lot to pack in the 3-day challenge and key officers will need to be involved – and many members will be asked too!
- Responses must be delivered on time and publication deadlines hit
- Action plan must be robust and resourced in response to the recommendations
- Will need to ensure some provision in budget planning process
