EXECUTIVE SUMMARY

One of the key functions of the Audit & Governance Committee is to monitor the effectiveness of the Authority's Risk Management Arrangements, including the actions taken to manage risks and to receive regular reports on risk management. Corporate risks are identified and managed and monitored by the Corporate Management Team (CMT) on a quarterly basis. Corporate risks have been assigned to relevant members of the Corporate Management Team. Through regular review, risks may be added or removed from the Corporate Risk Register. The Corporate Risk Register is attached as **Appendix 1** for information.

The Risk Management Policy has been reviewed and updated in line with best practice. The revised Risk Management Policy is attached as **Appendix 2**. Changes to the Policy are highlighted.

Work is continually completed by Internal Audit with Service Units to ensure that the operational risk register entries are aligned to the corporate risks. This will also identify areas where operational risk registers need to be updated to ensure that operationally, the corporate risks are managed. The Risk Management Action Plan for 2016/17 is attached as **Appendix 3** and shows status to date.
