1 Definition of Internal Auditing

Internal auditing is an independent, objective assurance and consulting activity designed to add value and improve an organisation's operations. It helps an organisation accomplish its objectives by bringing a systematic, disciplined approach to evaluate and improve the effectiveness of risk management, control and governance processes. (IIA – UK & Ireland)

The internal audit service will comply with the Public Sector Internal Auditing Standards (PSIAS) as adopted by the Chartered Institute of Public Finance and Accountancy (CIPFA). The PSIAS encompass the mandatory elements of the Institute of Internal Auditors (IIA) International Professional Practices Framework (IPPF) as follows:

- Definition of Internal Auditing;
- Code of Ethics; and
- International Standards for the Professional Practice of Internal Auditing (including interpretations and glossary).

The mandatory core principles for the Professional Practice of Internal Auditing are:

- Demonstrate integrity;
- Demonstrate competence and due professional care;
- Is objective and free from undue influence (independent);
- Aligns with the strategies, objectives, and risks of the organisation;
- Is appropriately positioned and adequately resourced;
- Demonstrates quality and continuous improvement;
- Communicates effectively;
- Provides risk based assurance;
- Is insightful, proactive, and future-focused; and
- Promotes organisational improvement.

This Charter will be periodically reviewed in consultation with senior management and the board. Changes to the International Professional Practice Framework will be incorporated as and when they occur.

The following posts will be designated as shown below in order to comply with the PSIAS.

Post	Designation
Audit & Governance Committee	Board
Corporate Management Team	Senior Management
Chief Executive	Head of Paid Service
Head of Internal Audit Services	Chief Audit Executive

The Chief Audit Executive will report conformance to the PSIAS in the annual report to the Board.

This information can be produced on request in other formats and languages

2 Mission Statement of Internal Audit

To enhance and protect the Authority's values by providing risk-based and objective assurance, advice and insight.

3 Purpose and Statutory Requirements

The Internal Audit activity will evaluate and contribute to the improvement of governance, risk management and control processes using a systematic and disciplined approach.

The Internal Audit activity must assess and make appropriate recommendations for improving the governance process in its accomplishment of the following objectives:

- Promoting appropriate ethics and values within the organisation;
- Ensuring effective organisational performance management and accountability;
- Communicating risk and control information to appropriate areas of the organisation; and
- Co-ordinating the activities of and communicating information amongst the board, external and internal auditors and management.

In addition, the other objectives of the function are to:

- Support the Executive Director Corporate Services to discharge their s151 duties of the Local Government Finance Act 1972 by maintaining an adequate and effective internal audit service;
- Contribute to and support the Authority's objectives of ensuring the provision of and promoting the need for, sound financial systems; and
- Investigate allegations of fraud or irregularity to help safeguard public funds.

Internal Audit is a statutory service in the context of the Accounts and Audit Regulations 2015 which state in respect of Internal Audit that:

“A relevant authority must undertake an effective internal audit to evaluate the effectiveness of its risk management, control and governance processes, taking into account public sector internal auditing standards or guidance.”

The work of Internal Audit forms part of the assurance framework, however, the existence of Internal Audit does not diminish the responsibility of management to establish systems of internal control to ensure that activities are conducted in a secure, efficient and well-ordered manner.

4 Objectives

The Chief Audit Executive's (CAE) responsibility is to report to the Board on its assessment of the adequacy of the entire control environment.

It does this by:

- Providing assurance, which is risk based and objective and relevant (Internal Audit's primary role) to the Council and its management on the quality of the Council's operations, whether delivered internally or externally, with particular emphasis on systems of risk management, control and governance. Assurance to third parties will be provided where specific internal audit resources are allocated to the area under review (e.g. pension contributions).;
- Providing consultancy services to internal and external delivered services. Consultancy services are advisory and insightful in nature and will be performed at the specific request of the organisation with the aim to improve governance, risk management and control; and
- Providing counter fraud and corruption services to include investigating fraud; increasing awareness of the counter-fraud responsibilities at all levels within and outside the Council; further embedding and supporting the effective management of fraud risk within the Council; setting specific goals for improving the resilience against fraud and corruption through the support of counter-fraud activities across the Council; and minimising the likelihood and extent of loss through fraud and corruption.

5 Role and Scope of Work

The scope on internal auditing encompasses, but is not limited to, the examination and evaluation of the adequacy and effectiveness of the organisation's risk management, control and governance processes as well as the quality of performance in carrying out assigned responsibilities to achieve the organisation's stated goals and objectives. This includes:

- Evaluating the reliability and integrity of management and financial information processes and the means used to identify, measure, classify, and report such information;
- Evaluating the systems established to ensure compliance with those policies, plans, procedures, laws, and regulations which could have a significant impact on the organisation;

This information can be produced on request in other formats and languages

- Evaluating the means of safeguarding assets and, as appropriate, verifying the existence of such assets;
- Evaluating the effectiveness and efficiency with which resources are employed;
- Evaluating operations or programs to ascertain whether results are consistent with established objectives and goals and whether the operations or programs are being carried out as planned;
- Evaluating the potential occurrence for fraud as part of the audit engagements;
- Monitoring and evaluating governance processes;
- Monitoring and evaluating the effectiveness of the organisation's risk management processes;
- Monitoring the degree of coordination of internal audit and external audit;
- Performing consulting and advisory services related to governance, risk management and control as appropriate for the organisation;
- Reporting periodically on the internal audit activity's purpose, authority, responsibility, and performance relative to its plan;
- Reporting significant risk exposures and control issues, including fraud risks, governance issues, and other matters to the Board;
- Evaluating specific operations at the request of management, as appropriate; and
- Support management upon the design of controls at appropriate points in the development of major change programmes.

With regard to Risk Management, Internal Audit will carry out individual risk based engagements to provide assurance on part of the risk management framework, including the mitigation of individual or groups of risks.

Internal Audit operate in an advisory capacity to:

- Report upon the level of risk maturity and scope for improvement;
- Facilitate the identification and assessment of risks; and
- Coach management in responding to risks.

The CAE is responsible for:

- Developing the corporate risk management strategy in liaison with the Management Teams and Service Units;
- Promoting support and overseeing its implementation across the Council;
- Monitoring and review of the effectiveness of the Risk Management Strategy;
- Assisting with the identification and communication of risk management issues to Units;
- Advising Corporate and Unit management teams on strategic and operational implications of risk management decisions; and
- Supporting Corporate and Unit management teams in their liaison with any external partners when identifying and managing risk in joint projects.

6 Proficiency and Due Professional Care

The internal audit activity will govern itself by adherence to The Institute of Internal Auditors mandatory guidance including the Definition of Internal Auditing, the Code of Ethics, and the Core Principles of the Internal Standards for the Professional Practice of Internal Auditing. This mandatory guidance constitutes principles of the fundamental requirements for the professional practice of internal auditing and for evaluating the effectiveness of the internal audit activity's performance.

The Institute of Internal Auditors' Practice Advisories, Practice Guides, and Position Papers will also be adhered to as applicable to guide operations. In addition, the internal audit activity will adhere to Tamworth Borough Council's relevant policies and procedures and the internal audit activity's standard operating procedures manual.

Job descriptions and person specifications for each post within Internal Audit Services define the appropriate knowledge, skills and experience and are reviewed periodically.

Personal Development Reviews will be completed in accordance with the Council's policy. Staff will be supported to fulfil training and development needs identified in order to support their continuous professional development programme.

Internal Auditors will exercise due professional care by considering the:

- Extent of work needed to achieve the engagement's objectives with detailed Terms of Reference (including consultancy engagements);
- Relative complexity, materiality or significance of matters to which assurance procedures are applied;
- Adequacy and effectiveness of governance, risk management and control processes;
- Probability of significant errors, fraud, or non-compliance; and
- Cost of assurance in relation to potential benefits.

Where gaps exist in knowledge and skills in the formation of internal audit plans, the CAE can engage specialist providers of Internal Audit Services.

Internal Audit staff will be suitably supervised and work will be reviewed by a senior member of staff.

7 Authority

The Internal Audit service, with strict accountability for confidentiality and safeguarding records and information, is authorised full, free, and unrestricted access to any and all of Tamworth Borough Council's records, physical properties, and personnel pertinent to carrying out any engagement. All employees are requested to assist the internal audit service in fulfilling its roles and responsibilities.

8 Organisation

The CAE will report functionally to the Board and administratively (i.e. day to day operations) to the Executive Director Corporate Services.

The Board will receive performance reports on the internal audit function on a quarterly basis.

9 Independence and Objectivity

The internal audit service will remain free from interference by any element in the organisation, including matters of audit selection, scope, procedures, frequency, timing, or reporting content to permit maintenance of a necessary independent and objective mental attitude.

Internal auditors must exhibit the highest level of professional objectivity in gathering, evaluating, and communicating information about the activity or process being examined. Internal auditors must make a balanced

assessment of all the relevant circumstances and not be unduly influenced by their own interests or by others in forming judgements.

Regular review of the placement/location of Internal Audit team members will be completed to ensure independence, taking into account the consultancy work individual Internal Auditors have performed when completing assurance engagements. Internal Auditors will not provide assurance in areas where they have been involved in advising management.

The internal audit service will also have free and unrestricted access to the Head of Paid Service and the Board.

The CAE will confirm to the Board, at least annually, the organisational independence of the internal audit activity.

10 Internal Audit Plan

At least annually, the CAE will submit to Senior Management and the Board an Internal Audit Plan for review and approval.

The Internal Audit Plan will be developed based on prioritisation of the audit universe using a risk-based methodology, which takes into account, results from previous audits, stakeholders expectations, feed back from Senior Managers, objectives in strategic plans and business plans, the risk maturity of the organisation (including managements response to risk), and legal & regulatory requirements. The use of other sources of assurance and the work required to place reliance on them will be highlighted in the audit plan.

Contingency time will be built in to the annual audit plan to allow for any unplanned work. This will be reported on in accordance with the internal reporting process to the Board.

Approval will be sought from the Board for any significant additional consulting services not already included in the audit plan, prior to accepting the engagement. The Audit Plan balances the following requirements:

- the need to ensure the Audit Plan is completed to a good practice level (currently at least 90% of planned audits remaining required and deliverable in the year);
- the need to ensure core financial systems are adequately reviewed to provide assurance that management has in place proper arrangements for financial control;
- the need to appropriately review other strategic and operational arrangements, taking account of changes in the authority and its services and the risks requiring audit review;
- the need to have uncommitted time available to deal with unplanned issues which may need to be investigated eg allegations of financial or other relevant irregularities, or indeed specific consultancy. (NB there are separate guidelines over circumstances in which Internal

Audit may and may not get involved in such investigations or consultancy, and further reference to this is made within the corporate Counter Fraud and Corruption Strategy and guidance); and

- to enable positive timely input to assist corporate and service developments.

A joint working arrangement with External Audit will be sought such that Internal Audit resources are used as effectively as possible.

11 Reporting and Monitoring

A written report will be prepared and issued by the CAE following the conclusion of each internal audit engagement and will be distributed as appropriate with executive briefing reports issued to the Chief Finance Officer, Head of Paid Service and the Monitoring Officer. A summary of the Internal Audit results will be communicated to the Board.

The final internal audit report will include management's response and corrective actions in regard to the specific findings and recommendations. It will also include a timetable for anticipated completion of action to be taken.

The Internal Audit service will be responsible for following up the recommendations made to ensure that management have implemented them in the agreed timescales. This will be completed within six months from the finalisation of the audit. An additional implementation review will be carried out where high priority recommendations remain outstanding or a significant number of recommendations remain outstanding. Internal Audit will not complete any additional implementation reviews on recommendations that remain outstanding at this stage. It is management's responsibility to ensure that the agreed actions are implemented. All outstanding recommendations will remain open on the Covalent system for management to complete.

Results of implementation reviews will be communicated as appropriate with copies to the Chief Finance Officer, Head of Paid Service and the Monitoring Officer. A summary of the results will be reported to the Board.

Where significant risk exposures and control issues, including fraud and governance issues, are identified, they will be reported to the Board.

12 Quality Assurance and Improvement Programme

The Internal Audit activity will maintain a quality assurance and improvement programme that covers all aspects on the Internal Audit activity. The programme will include an evaluation of the internal audit activity's conformance with the Definition of Internal Auditing and the International Standards and an evaluation of whether internal auditors apply the Code of Ethics. The programme also assesses the efficiency and effectiveness of the internal audit activity and identifies opportunities for improvement.

The CAE will periodically report to the Board on the internal audit service purpose, authority, and responsibility, as well as performance relative to its plan. Reporting will also include significant risk exposures and control issues, including fraud risks, governance issues, and other matters needed or requested by senior management and the board.

In addition, the CAE will communicate to Senior Management and the Board on the internal audit service's quality assurance and improvement programme, including results of ongoing internal assessments and improvement plans and external assessments. External assessments will be conducted at least every five years by a professionally qualified and experienced assessor.

The improvement plan resulting from the internal and external assessments will be reported to and monitored by the Board.

Signed by

Chief Audit Executive (Head of Internal Audit Services)

Chairman of the Board (Chair of the Audit & Governance Committee)
