

## **Quarter Two 2019/20 Performance Report**

This report is divided into the following sections:

1. Overview of corporate plan actions and corporate risks,
2. Impact of welfare benefit reform,
3. Medium term financial strategy,
4. Financial healthcheck

### **List of appendices**

**Appendix 1** 2019 to 2022 Corporate Plan actions update,

**Appendix 2** Corporate Risks,

**Appendix A** General Fund & Housing Revenue Account main variances,

**Appendix B** Capital programme monitoring,

**Appendix C** Treasury management update.

## **1. Overview of corporate plan actions and corporate risks**

The Executive Leadership Team identified projects from the Corporate Plan, the monitoring of which would form the basis for this section of the quarterly performance report.

Project highlight reports for each of these are included at **Appendix 1**.

Details on the Corporate Risk Register are included at **Appendix 2**

## **2. Impact of Welfare Benefit Reform on Council services**

Quarterly updates are presented to monitor the impact of welfare benefit reform changes on Council services including customer demand via monitoring of calls/contacts together with the financial impact of collection and demand for benefits and effect on income streams such as rent, council tax and business rates.

### **Benefits**

A reduction in the number of DHP claims is reported - DHP claims approved total £75k (£1k lower than at September 2019 - £76k) with 122 successful claims from 175 applications (compared to 177 successful claims from 264 applications at September 2018). There is a 1 week backlog (4 weeks as at September 2018) of claims still to be processed which may increase this figure.

Live caseload figures are 206 lower than 2018/19 – currently 5,393 (5,599 at September 2018). The average time taken to process new Housing Benefit/Council Tax Benefit claims and change events was 6.8 days to September 2019 (11.4 days to September 2018).

### **NNDR**

Reminders (465 at September 2019) are higher than 2018/19 levels (396 at September 2018) with summons and liability orders at higher levels than 2018/19. Enforcement agent referrals are higher than 2018/19 levels (36 referrals to September 2019 compared to 20 at September 2018).

Strong collection performance is reported - current year collection levels are at 57.4%, ahead of target by 0.8% at 30 September. Court costs of £4k are higher than anticipated at £3k. Arrears collected for 2018/19 are ahead of target at 36.8% compared to target of 17.4%.

### **Council Tax**

Reminders are 556 higher than 2018/19 levels (9,330 at September 2019 compared to 8,774 at September 2018) with summonses, liability orders and attachment of earnings also at higher levels. Enforcement agent referrals are 26% higher than 2018/19 levels (1,106 referrals to September 2019 compared to 881 at September 2018).

Current year collection levels at 58.5% are ahead of the target of 58.2% at September 2019 (with a target of 98% for the 2019/20 financial year). Court cost income is lower than anticipated by £2k at £136k.

Arrears collection for 2019/20 at 32.9% is ahead of the target of 32.6% - work on further approaches to realise more Council Tax revenue is in place.

Collection Fund – the estimated surplus is £17k for the year with a LCTS projected underspend of £21k (total £38k).

## Housing

Summary information provided below explains numbers in receipt of Universal Credit:

Indicator	Qtr 4 2018/19	Qtr 1 2019/20	Qtr 2 2019/20
Number of Council Tenants on Universal Credit	645	736	858
Number of Council Tenants on Universal Credit in Rent Arrears	443	591	609
Percentage of Council Tenants on Universal Credit in Rent Arrears	68.7%	80.3%	71.0%
Number of Council Tenants on Universal Credit not in Rent Arrears	202	145	249
Percentage of Council Tenants on Universal Credit not in Rent Arrears	31.3%	19.7%	29.0%

Bad debt is forecast to increase in the future as more cases of Universal Credit come on board.

Total Rent arrears (excluding former tenants) at 30 September 2019 were £576k compared to £494k at 31 March 2019 – an increase of £82k (compared to a £299k increase as at 30 September 2018).

Total arrears (including former tenant arrears, recharges, court costs and garages etc.) are £1.95m at 30 September 2019, compared to £1.84m at 31 March 2019, an increase of £113k (compared to a £320k increase between 31 March 2018 and 30 September 2018).

Total arrears (including garages etc.) were £1.84m at 31 March 2019 compared to 31 March 2018 - £1.68m (£155k higher).

There were 4 evictions during the period to August 2019 compared to 6 to August 2018.

There were no court cases where bedroom subsidy, cap or other is the primary reason for possession proceedings (3 to September 2018).

### **3. Medium Term Financial Strategy 2018 to 2025 monitoring**

The budget setting process has faced significant constraints in Government funding in recent years - over 50% in real terms since 2010. The 4 year Local Government Finance Settlement confirmed in February 2016 that austerity measures are to continue with Revenue Support Grant (RSG) all but eradicated for most Councils by 2020 – and suggests that the key challenges that the Authority is currently addressing are likely to become greater.

The Council is responding to these challenges by considering the opportunities to grow our income. We are ambitious with our commercial view and will continue to work hard to identify income streams that enable us to continue to meet the needs of our residents.

The Council remains committed to promoting and stimulating economic growth and regeneration; meeting our housing needs; creating a vibrant town centre economy and protecting those most vulnerable in our communities.

More than ever, we recognise that our financial capacity will be less than in previous years which means that we will need to maintain our approach to innovation, collaboration and transformation. So, not only will the Council seek investment from businesses and developers, but the Council itself will explore viable and sustainable investment opportunities using all returns to support public services.

We continue to invest in our teams, transform our processes and ensure our technology infrastructure is fit for purpose. We have identified a number of opportunities to improve customer access to information and services as well as our engagement with our citizens and the way in which we manage our data and information.

The adoption of 'Demand Management' as the primary operating model and the targeting of resources via locality based commissioning and delivery has enabled greater effectiveness in service delivery. As part of a 'Tamworth Community Offer' we will:

- Improve our use of 'insight' in shaping services and directing investment;
- Better align service delivery to ensure we act with purpose and are accountable;
- Support the Demand Management model with prevention approaches which seek to tackle causes and reduce costs;
- Develop approaches which genuinely 'empower' individuals and communities;
- Support a transformed dialogue with residents - recognising that our financial capacity will be less than in previous years which means educating and supporting communities to focus resources on 'needs' and being clear on what we are able to do and equally what we can't.

Key to this will be the application of existing and new technology to capture, collate and analyse customer insight, intelligence and data so as to understand not just the 'need' but the cause, behaviours or decisions creating the need. Then by the application of locality based commissioning for example, it can commission services that either intervene or prevent future need thereby reducing demand.

This approach will change the organisation and how it works; will require Members to take difficult decisions and adhere to them; will involve managed risks and will sustain essential services critical in supporting the most vulnerable in our communities at a time when demand is increasing and resources reducing.

Linked with this, the 'Delivering Quality Services' project continues to review processes and demand, with the aim of re-designing processes to meet changing customer expectations and making the best use of technology to deliver efficient and effective services to the customer, including self-service and digital functionality.

This approach will change the organisation and how it works; will require Members to put evidence and insight at the heart of our decision making to ensure that we are transparent about the rationale for our decisions and plans; will involve managed risks and will sustain essential services critical in supporting the most vulnerable in our communities at a time when demand is increasing and resources reducing.

Corporate Management Team (CMT) and Cabinet review the most up-to-date budget forecasts on a quarterly basis, and discuss the delivery of the planned savings to support our Medium Term Financial Strategy (MTFS) – as outlined below.

Work is continuing on a number of actions to address the financial position in future years:

- Delivering Quality Services project – the demand management approach to shift demand to more efficient methods of service delivery – online and automation (Interactive Voice Response).
- Recruitment freeze – there is a robust challenge / re-justification process in place for all vacant posts with a requirement to investigate alternative options including restructuring to fill vacancies / looking at what we can stop doing;
- Spend freeze – A review of the underspend position has been undertaken with a view to drive out as many savings as possible – and has identified annual savings of c.£160k p.a. from 2020/21. There was a £2.3m underspend in 2018/19 – although much of this arose from windfall income, c. £0.7m was lower level underspends.
- Alternative investment options arising from the Commercial Investment Strategy (as well as the Treasury Management Investment Strategy) to generate improved returns of c. 4% to 5% p.a. (plus asset growth);  
A savings target to return c.4% p.a. from the planned investment of £12m in Diversified Property Funds has already been included from 2020/21.
- Review of reserves (including ensuring adequate provision for the funding uncertainties) / creation of fund for transformation costs (if needed);
- Targeted Savings – to identify potential areas for review in future years; and
- Review and rationalisation of IT systems.

However, there remains a high degree of uncertainty arising from the most significant changes in Local Government funding for a generation. The following reforms were planned to be in place by 2020/21 but given announcements following the 2019 Spending Round these have been deferred until 2021/22.

The government previously stated its intention to hold a new Spending Review in 2019, covering the period 2020/21 to 2022/23. However, a one-year Spending Round has been carried out, covering the financial year 2020/21; and this will be followed in 2020 by a full Spending Review, reviewing public spending as a whole and setting multi-year budgets.

In addition, the Government have said that, given the need to provide certainty and stability for next year, the longer-term reforms for the local government finance system, including business rates retention and fairer funding (Review of Relative Needs and Resources), have been delayed until 2021/22.

- Fair Funding Review (FFR) of the distribution methodology (now from 2021/22) including:
  - changes to the needs assessment (which will determine each Council's share of the national funding for Local Government – it is likely that this will reflect the impact of Social Care demands and that funding will be redistributed to Unitary and County Councils to the detriment of District Councils);
  - treatment of relative resources (to determine how much each Council can fund locally through income from fees and charges and council tax); and
  - any transitional arrangements to protect Councils from significant reductions in funding – and the impact from their unwinding.
- Spending Review 2020 (SR20) – where the total spending allocation for Government Departments will be set – including national control totals for Local Government spending. It has already been announced that significant additional funding will be diverted to the NHS which could mean further reductions for other Departments including Local Government;
- The ongoing review of the Business Rates Retention (BRR) scheme (now from 2021/22) – the Government announced that Councils will be able to retain 75% of business rates collected rather than 100% as previously planned with work progressing on the design of the new system including the impact of 'rolling in' grants such as Housing Benefit administration and New Homes Bonus;
- The planned reset of the Business Rates baseline for each Council and redistribution of the growth achieved since 2013 of over £1m p.a. (now from 2021/22);
- Uncertainty over the ongoing funding for the New Homes Bonus scheme, local growth in housing numbers and share of the national pool (including potential increases to the 'deadweight' for which Councils no longer receive grant). The 4-year legacy payments for New Homes Bonus (NHB) will be paid, but there still remains uncertainty regarding new payments.

It is the Government's intention to look again at the New Homes Bonus for 2021/22 and explore the most effective way to incentivise housing growth. They plan to consult widely on proposals prior to implementation. As the roll forward is for one year, with any funding beyond 2020/21 subject to the 2020 Spending Review and potential new proposals, the Government have said that the new allocations in 2020/21 will not result in legacy payments being made in subsequent years on those allocations.

In addition, the next planned national Business Rates Revaluation will take effect from 2021/22 – with latest indications that the Government will also aim to introduce a centralised system for business rate appeals at the same time to cover future changes arising from the 2021 valuation list.

While we are aware of these forthcoming changes, little to no information is available on the potential impact for individual Councils' finances.

In 2016-17, at the start of the four-year offer made to local government, the Government introduced a separate council tax referendum principle for shire districts, to address particular pressures on these authorities. This principle meant that districts could increase council tax by the core principle (2% in 2020-21) or £5, whichever is greater. The Government continued to grant this flexibility in 2017-18, 2018-19 and 2019-20 and is likely to continue for 2020/21.

Revised Forecast Balances - Sept 2019	(6,112)	(6,462)	(5,874)	(3,451)	(1,023)	1,986	5,141

On 15th August 2019, Cabinet approved the budget setting process (& project plan) for 2020/21.

On 5th September, Cabinet considered an update to the MTFS for the General Fund (GF) and Housing Revenue Account (HRA) - as part of the agreed process to provide an update the MTFS on a quarterly basis within the Quarterly Performance Report.

In line with the approved timetable, work on the preparation of the detailed 5 year budget / forecast has progressed in order to inform the Base Budget Forecast for Cabinet on 29th November.

However, given the announcements regarding the deferral of the planned reviews until 2021/22, the Council now stands to benefit in 2020/21 from retained business rate growth of over £1m and redistributed levy of c.£0.6m, subject to approval to join the Staffordshire Business Rates Pool.

As a result the updated forecast, the forecast projections identify General Fund balances of £1m over 3 years (compared with a forecast shortfall in the February 2018 MTFS projections of £0.9m) – with a shortfall of £2.5m to 2023/24 increasing to £5.6m over 5 years (the shortfall was previously forecast at £3.8m in 2023/24), including the minimum approved level of £0.5m.

Further savings of around £1.1m p.a. will be required over the next 5 years (based on annual £5 increases in Council Tax). On an annualised basis this would equate to a year on year ongoing saving of £0.4m over 5 years.

The forecast has been updated to include:

- The final outturn for 2018/19 – additional balances of £0.3m from a higher than forecast underspend position of £2.3m. A projected underspend of £1.8m for 2019/20 has been included - including;
  - Due to the Staffordshire pilot arrangement, there are no requirements to pay c.£1m levy in 2019/20;
  - Returned business rates levy for 2018/19 from GBSLEP of £0.3m following finalisation of the audit process plus £0.4m from the Staffordshire business rates pilot for 2019/20;
- Lower treasury management investment interest of £0.2m over 3 years from 2020/21 – forecast increases in the Bank of England base rate have been delayed due to the ongoing uncertainty regarding the Brexit process; This has also delayed some of the planned property fund investments with an associated reduction in planned income of £0.2m in 2021/22;
- £1.4m in additional retained Business rates in 2020/21 (net of levy payment / s.31 grant income) due to retention of the growth since 2013, following the deferral of the planned Local Government funding reviews to 2021/22;
- Returned levy in 2020/21 of c.£0.6m from pooling in the Staffordshire pool;
- Revised lump sum contribution to the pension fund following the 2019 triennial review – an increase of 1% p.a. for 3 years (followed by 2% p.a. thereafter);
- A 2.5% p.a. pay award increase has been included within the MTFs – no change has been assumed;
- Costs / savings from the CCTV service review.

The Bank of England has already indicated that should the UK leave the EU with no deal then this could adversely affect the economy and measures would need to be taken – this could have a significant impact on the finances of the Council but cannot be accurately quantified at this stage (impact on base rate / investment interest, local economy / business rates income, council tax income etc.).

## Housing Revenue Account

The updated forecast as at September 2019 is detailed below:

	Housing Revenue Account						
MTFS Projections 2018/19 - 2024/25	2018/19	2019/20	2020/21	2021/22	2022/23	2023/24	2024/25

As part of the approved MTFS in February 2108, a balanced 5 year forecast was presented for the Housing Revenue Account (HRA).

As a result the updated forecast, over the 3 year period to 2022/23, balances will remain above the approved minimum of £0.5m at £4.8m (compared with a forecast in February of £2.1m) with balances of £5.9m over the 4 years to 2023/24 increasing to £7.2m in 2024/25 (balances were previously forecast at £2.3m in 2023/24).

The forecast has been updated to include:

- The final outturn for 2018/19 – additional balances of £0.9m from a higher than forecast underspend position of £1.5m. No material variance from budget for 2019/20 has been included;
- Revised lump sum contribution to the pension fund following the 2019 triennial review – an increase of 1% p.a. for 3 years (followed by 2% p.a. thereafter) has been assumed under the central case forecast, £60k over 3 years;
- Increased Housing rental income due to lower levels of right to buy sales, the completion of Tinkers Green and Kerria Housing developments – as well as increases in rents of CPI plus 1% from 2020/21;
- A 2.5% p.a. pay award increase has been included within the MTFS – no change has been assumed.

No changes have been assumed regarding from the planned stock condition survey and ongoing repairs contract arrangements (additional cost pressures in these areas of c.£1m p.a. had previously been assumed under the worst case forecast).

- Capital expenditure incurred was £3.155m compared to a profiled budget of £16.932m (£2.320m compared to a profiled budget of £16.349m as at period 5).
- It is predicted that £8.494m will be spent by the year-end compared to a full year budget of £18.912m (this includes re-profiled schemes from 2018/19 of £17.929m).
- A summary of Capital expenditure is shown at **Appendix B**.

## Treasury Management

- At the end of September 2019 the Authority had £63.634m invested in the money markets. The average rate of return on these investments is 1.02% though this may change if market conditions ease.
- Borrowing by the Authority stood at £63.060m at the end of August 2019, all being long term loans from the Treasury Public Works Loans Board. The average rate payable on these borrowings equates to 4.05%.
- A more detailed summary of the Treasury Management situation, detailing our current Lending and Borrowings can be found at **Appendix C**.

## Balances

Balances on General Fund are projected to be in the region of £6.461m at the year-end from normal revenue operations compared to £4.388m projected within the 2019/20 budget report.
