

sector groups to carry out face to face sessions as part of the consultation. Committee requested that the CCG pass its comments on to NHS England relating to its current guidance on face-to-face consultation.

Performance Overview and Dashboard

The report detailed performance data with focus was on referral times, diagnostic timelines, metrics, and information relating to Urgent and Emergency Care UEC and winter pressures. Committee understood the pressures outlined and that NHS was facing its most challenging winter period. The Chairman welcomed the report and dashboard as a positive step toward building an overall dashboard of health across the County, this would be rolled down into Districts and Boroughs to inform scrutiny work to improve the health of residents.

Walley's Quarry Health Implications Update

Committee considered updates from the Environment Agency, UK Security Agency and Public Health relating to the health risk assessment of air quality monitoring, measures taken to reduce the off-site odours from the landfill site and recent findings from surveys to measure odour and symptoms experienced by residents living close to Walley's Quarry.

Members were satisfied with progress to implement measures to reduce the odour from the landfill site and that current air pollution data was reducing month on month but highlighted that the odour was still causing temporary discomfort to residents and having an impact on resident's mental health. Committee agreed to carry on monitoring trends in the resident's survey and air pollution, and to consider any potential mental health and long-term health impacts for residents. It was agreed to receive a further update, including issues relating to mental health of residents, in 3 months' time.
