## Part 2 – Summary of Assessment Give a summary of your proposal and set out the aims/ objectives/ purposes/ and outcomes of the area you are impact assessing. Regulation 15 of the Planning and Compulsory Purchase Act 2004 (as amended) requires a local planning authority to prepare and maintain a Local Development Scheme (LDS). The purpose of the LDS is to allow the local community and other interested parties to keep track of progress on development plan documents. It should be made available publicly and kept up-to-date. There is no specific timeframe for review of the LDS, but the legislation states that local planning authorities should revise the LDS at such time as they consider appropriate. The LDS has been revised to reflect an updated timetable, and the proposal is to publish the revised LDS in line with the relevant regulations. Who will be affected and how? The decision relates solely to the publication of a document required to be published by regulations. The document relates to the delivery of a new local plan, a project which will be subject to a community impact assessment of its own. There are therefore no specific effects that can be identified at this stage.
