

QUESTIONS FROM MEMBERS OF THE PUBLIC NO. 1

Under Procedure Rule No 10, Roger Lloyd, will ask the Portfolio Holder for Environmental Sustainability, Environment and Waste, Councillor D Foster, the following question:-

I live on the Anker Valley estate. The public open space on the estate is not adopted by the council and suffers from a number of problems resulting from this such as expensive management fees, poor service from the managing agent and poor build quality. Would the council agree that the private estate model is not working for Tamworth's residents and that the root cause of these problems is the lack of adoption by the council which has left these particular Tamworth council taxpayers at the mercy of greedy developers and agents? As such, would the council therefore consider adopting this estate, similar estates and future estates particularly given that the council is proposing to adopt Amington Green? Different treatment of taxpayers who pay full council tax but who are not receiving services ordinarily provided such as grass cutting or public waste bin emptying would be unfair.

QUESTIONS FROM MEMBERS OF THE PUBLIC NO. 2

Under Procedure Rule No 10, Roger Lloyd, will ask the Portfolio Holder for Housing Homelessness and Planning, Councillor B Clarke, the following question:-

I live on the North side of Tamworth and have noted the Labour governments proposals to build 1.5m houses in 5 years and increase housing allocations each year. There are a number of new build developments being built and proposed on the North side of Tamworth as well as other areas (some of which fall under Lichfield or North Warwickshire council). What does the council propose to do in relation to relevant infrastructure delivery such as new roads, doctors and schools to ensure that existing residents quality of life is not diminished due to gridlock and difficulties getting doctors appointments?

QUESTIONS FROM MEMBERS OF THE PUBLIC NO. 3 & 4

Under Procedure Rule No 10, Lee Bates, will ask the Leader of the Council, councillor C Dean the following question:-

Cllr Dean, as a proud Tamworthian, I was thrilled to attend the unveiling of the new displays at Tamworth Castle—especially given the deep connection to the Glascote Torc's journey. Unearthed in 1943 by Mr Bates and Mr Croshaw and hidden away in my Grandad and Nan's wardrobe for 27 years until 1970, when Grace Bates read an article revealing its true value, this remarkable artifact has finally found its rightful place in Tamworth after 55 years of passionate campaigning, by many different people and groups including myself.

Could you please explain how the council is paying tribute to Sarah and the entire Tamworth Castle team for achieving this fantastic milestone in Tamworth's History with what was once thought an impossible dream?

Additionally, how can we as members of the public support and capitalise on this significant milestone and the broader Tamworth heritage story?

Local government reorganisation means that services will be delivered by a single council that covers a huge part of Staffordshire, or all of Staffordshire. Given that this will not see additional income for the authority , and while still struggling with high cost items such as children in need, social care, SEND, school transport and roads, how will the leader see local community services being delivered in Tamworth
