Ok so last night.... i got completley smashed & DJ'd which doesn't normally happen, i can't remember what i played or what i did after or how i got home. I'm hearing i played a few tunes twice & used the hot cues & loops quite abit not to mention pulling the fader down and screaming stuff... apologies to anyone who had to witness that haha! Good night from what i can remember anyway! Special thanks to our driver Kat! Just to let you all know, olivers beer garden is NOT closed forever and Olivers is NOT closing down. Far from it! We are starting a refit with new male and female toilets and re opening the upstairs bar. The beer garden has to temporarily close at 11pm due to a licensing issue with Staffordshire police. they have decided that a 3 year old agreement cannot be honoured, so you cannot use garden after 11pm to smoke or drink. The bar is open as normal though. There is a petition to sign in Olivers about this. Your support would be much appreciated and all the euro games will be on as normal — with Jay Bladen and 22 others.
