When officer arrived at location he was met by a group of young people estimated at around 15 - 16 yrs. In the main intoxicated. The group explained that their friend had been assaulted by an older male. Ip was spoken to, she was quite heavily in drink. Ip initially stated that she had only gone inside to use the toilet but later admitted that she had been part of a group of youngsters at a table inside when the incident occurred. Officer spoke later to the DPS who stated she had been upstairs having a lie down when the incident occurred. DPS was also unable to operate cctv which was not of a suitable standard. Large groups of males fighting with weapons in the general area of the premises. On police attendance it was clear the incident had begun inside the permises where a dispute had occurred between a group of Polish males and local residents drinking inside. Once the incident was quelled police spoke to the DPS who still had a large number of locals inside with what appeared to be fresh alcoholic drinks. She was advised that the premises should be cleared for safety reasons and to prevent further problems as there were many who appeared drunk inside. There appeared to be little control exercised by the	Full licensing check: The following breaches were found - 1. Recorded music could be heard from the car park to the side of the venue. 2. Fire exit door wedged open and recorded music could be heard. Observations made were that a member of the public had accessed the area behind the bar and a closed area within the venue. Cctv was installed but couldnt be as recording the 30 days, however dps had arranged a burned copy of the previous nights disorder ready for the police so it could be a defence that this was the case. A local person looks after her cctv system.		Whilst viewing another incident in the town centre cctv control room, officer has noticed the cameras showing the St George. There were persons entering and leaving through the door at the rear with the beer garden, and persons emerging with full pint glasses of beer to stand at the door and have a cigarette. This was a regular occurrence between 01:00hrs and 01:50hrs. It was noted that the premises should have been closed at 01:30hrs.
