	Glascote Heath Tamworth Staffs.	To whom it may concern, I have been a patron of the St George Public House previously known as the Flying Scotsman since 1980. My late father and his peers also frequented the establishment that has been an important part of our community and served numerous generations of it.	
		For the last 27 years I have been living in my flat above the neighbouring Spar shop. My flat is actually joined to the St George and in all that time I have never been given cause to complain by the pub or its patrons.	
		I would urge you not to allow these PTO	

Premises to close as it serves a vital function and helps to bind our community.  
Its closure would see the loss of a communal meeting place and would  
be detrimental to our community spirit.  
I would also like to congratulate the present landlord Michelle ~~and~~ all  
the good work she and her staff do to improve and assist our estate and its  
residents. She is a pillar of our community and without her we would be  
at a loss.
